RE: Annual Asbestos Management Plan Notice

From: Edward Fletcher, Superintendent

This letter is to inform you of the status of Monmouth-Roseville School District asbestos management plan. It has been determined by the Illinois Department of Public Health and the Federal Environmental Protection Agency that asbestos is a potential health hazard and precautions should be taken to avoid disturbing and asbestos containing materials.

As required, our buildings were initially inspected for asbestos. Our inspection was conducted 12-29-1989. The AHERA law required that a visual surveillance of asbestos containing areas be completed every six months, and a re-inspection conducted every three years. Any evidence of disturbance or change in condition will be documents in the Management Plan as required.

The Inspection/Management Plan is available for public review in the respective school office. Should you wish to review the plans please call to make an appointment between 8:00 A.M. and 3:00 P.M.

Any concerns relative to asbestos containing materials should be directed to David Greenlief, at 105 North E Street, Monmouth, Illinois, 309-734-4712.

Sincerely,

A handwritten signature in blue ink that reads 'Edward Fletcher'.

Edward Fletcher

Superintendent
